

ONLINE EXHIBITION: Science Fair

ICRC 2021

THE ASTROPARTICLE PHYSICS CONFERENCE
Berlin | Germany

37th International
Cosmic Ray Conference
12–23 July 2021

37th International Cosmic Ray Conference

It is a great pleasure and an honor to extend a warm invitation to attend the 37th International Cosmic Ray Conference 2021 (ICRC 2021) in Berlin, Germany.

The conference is held as an Online Conference.

The ICRC is organized biennially since 1947 under the auspices of the International Union of Pure and Applied Physics (IUPAP). It is the prime conference in Astroparticle Physics, with a typical attendance of over 1000 physicists, engineers and students. The main topics of Astroparticle Physics are Cosmic Ray Physics, Gamma Ray Astronomy, Neutrino Physics & Astronomy, Dark Matter Physics, Solar & Heliospheric Physics, covering experiments, theory, models, methods and instrumentation. With our research, we are pushing the technological limits.

Part of the conference is an exhibition, to which you are cordially invited.

Exhibition

We invite collaborations and individuals to present their experiment or observatory and to showcase anything relevant, interesting or peculiar about Astroparticle Physics, that does not fit easily into a science talk or poster. Be it artistic photos, stunning film clips, new project descriptions, outreach projects, anything of potential interest to ICRC participants is welcome. Share your enthusiasm about Astroparticle Physics and find colleagues with similar interests.

Exhibitor Benefits Include

Package

80 € incl. VAT

- Conference participation (one person, full duration) with access to all conference materials and all participants.
- Display of a logo and a portal to own pages and materials on the event page.
- advertisement of Science Fair exhibits
- Access to chat rooms.
